*“Living in Soulard for over 30 years I have seen the neighborhood change for the better in many ways. The Soulard School, which is a stone’s throw from my home, is emblematic of the progress that has been made. It offers a quality education to students from all walks of life while also teaching them the value of just being a good person. The Soulard School is good for our block, good for the neighborhood and good for the City of St. Louis. I am honored to be a small part of The Soulard School.”*
